24/7 Member Billing and Login Support

CCBill Dating Program

Increase Your Bottom-Line Seamlessly

Whether it is free-to-play, keeping members interested or keeping up with expanding mobile use – dating site payments and management can be complex. Add-on changing banking regulations and new payment types, and your payment processor becomes a valuable partner in managing your end result.

CCBill provides dating and relationship sites with the tools to adapt, grow, and automate, while incorporating high-risk management when needed (see note). By providing members the ability to increase their subscriptions with one-click upgrades, CCBill's payment processing platform empowers a positive member experience, and improves retention with automation and 24/7 member support. With the best subscription tools in the business, including trial and recurring payments, automated notifications, and automated custom receipt delivery, you can focus on your site and leave your member billing support and management to us.

Upsell Love

As the world changes so must your business, and adding new revenue streams or attracting partners is a necessity to attract and retain your buyers. With CCBill's unique Merchant Connect network and one-click purchase tools, your dating site becomes accessible to other merchants seeking to add a service like yours. And with CCBill's integrated Original Affiliate system, tracking partners or referred sales becomes an automated process, since CCBill's system manages tracking and payouts to partners.

CCBill's Date pricing package was designed to meet the needs of dating sites with flat rates for subscriptions and free trials, and no hidden upcharges for cross-border payments or different card types. Everything you need to take payments is included in the package, and can be added to your site easily and seamlessly – allowing you to start leveraging the broadly recognized consumer respect of CCBill as a trusted partner in a matter of days.

Our all-inclusive e-commerce service can help you:

Set it and forget it. Incorporate automated subscriptions and notifications.

Attract new members. Offer new visitors free and paid trials at no additional cost.

Keep members happy and engaged. Provide members the ability to increase their subscription with one-click upsells.

Support happy customers. 24/7 billing and login support for members is included at no extra charge.

Offload regulation management. Be compliant with MasterCard High-Risk guidelines.

Expand your global reach. International currencies and languages reach global users on their local level for a friendly experience.

Attract instant trust. Offer a secure payment processing option that millions of buyers already trust and prefer for their purchases.

Note: MasterCard considers any dating site to be high-risk, even if the site offers services that are not of traditional adult content. Your site may fall into a high-risk category for MasterCard even if it didn't qualify as a high-risk site for other card types. Any dating site with adult-specific content and/or images automatically falls under risk for both content and pricing with Visa and Mastercard.
